

TALK TO AN EXPERT.

Let E3 INNOVATE make sure your house is a healthy and efficient home.

Is your home affecting the health of your family?

Home issues don't just pop up in a single place. They come from all sides, and often without warning. You and your family may unknowingly be subjected to conditions that are causing or worsening physical ailments. E3 INNOVATE will inspect, diagnose, and make the proper repairs to improve the health and efficiency of your whole home.

Allergens, Dust, & Odors

Moisture Issues, Mold, & Mildew

Unwanted Pests

Contaminated Duct System

High Radon Levels

Hot & Cold Rooms

Overworked HVAC

High Energy Bills

Basic Inspection \$260.00

Includes a walk-through evaluation and thermal imaging of your home, attic, and crawlspace (or basement) to get a sense of the top-level improvements you can make to improve the comfort and efficiency of your home. This package also includes a radon test.

Extensive Diagnostic* \$640.00

Includes everything from the Basic Test as well as thorough testing of your home and duct system to identify causes of comfort and moisture imbalances. This package will also identify ways to improve the performance, comfort, and value of your home.

Comprehensive Diagnostic* \$1420.00

Includes everything from the Extensive Test plus a detailed air quality evaluation. Our sensors will track humidity, temperature, and air contaminants to quantitatively measure air quality and conditions in your home.

A Clear Plan of Action.

After the diagnostic testing, we walk you through each step of the process of improving your home, as well as finding the best incentives available. Let E3 improve your home today!
