

# “Could my house be causing our family to have comfort and health issues?”

**40%**  
OF HOMES  
Tested in Davidson County had  
**ELEVATED LEVELS OF  
RADON**

\* Based on 4,152 homes tested

**90%**  
OF HOMES  
ARE UNDER  
**INSULATED**

\* Based on 4,152 homes tested

## To Know for Sure, You Need a Home Diagnostic Assessment

**E3 INNOVATE** knows what to look for, where to look, and how to fix it.

An E3 INNOVATE accredited Home Energy Rater performs a comprehensive Diagnostic Home Assessment on your home to help uncover underlying home performance deficiencies. We take this information and prepare a detailed report of testing data with photo documentation, so you see exactly where the issues are. Then, we create a customized action plan for addressing the issues to make sure your house is an Energy Efficient Healthy Home.

“I had three different companies  
come out to try and fix my home issues.  
I should have called E3 INNOVATE first.”

- Kim R.

## E3 INNOVATE is Your **WHOLE-HOME** Expert.

High energy bills could be more than just extreme hot or cold weather. Musty odors could be more than just a wet crawlspace. Fluctuating room temperatures can be more than just poor insulation. The experts at E3 INNOVATE do more than just put a band aid on problems... we thoroughly inspect, diagnose, and assess your whole home. It's where we excel, and it's why we are Nashville's **ONLY** whole-home experts. Get it fixed right the first time. Make E3 INNOVATE your first call... not your last.

### **AIR LEAKAGE**

Proper air sealing prevents drafts, improves comfort, and reduces energy waste.

### **DUCT LEAKAGE**

Improperly sealed duct work is an invitation for pests, mold and mildew to enter your home.

### **CRAWLSPACE**

A properly sealed crawlspace reduces the risk of mold, rot, and helps keep pests and insects out.

### **RADON**

Radon is a radioactive gas you can't see, feel, taste, or smell and is the second leading cause of lung cancer.

### **INSULATION**

Poor insulation creates gaps and cracks in the thermal barrier.

### **VENTILATION**

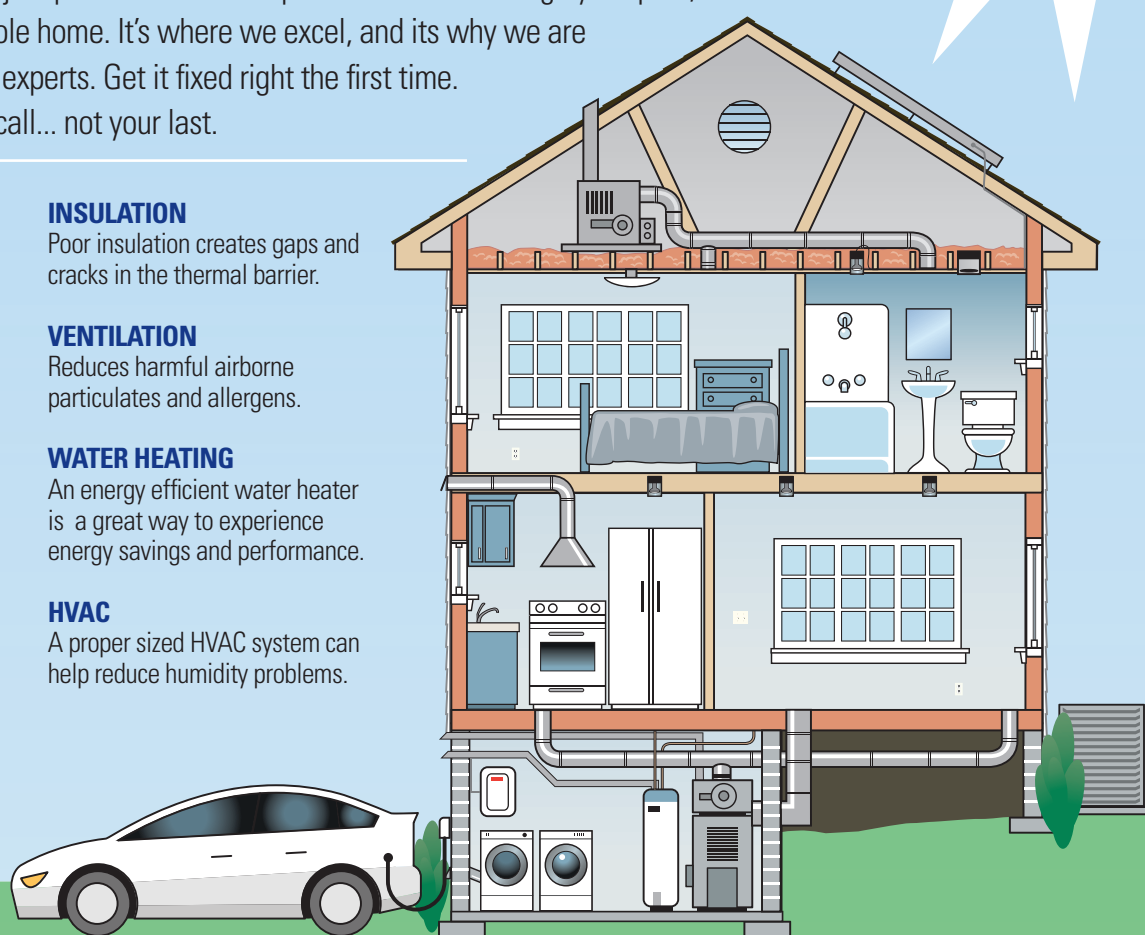

Reduces harmful airborne particulates and allergens.

### **WATER HEATING**

An energy efficient water heater is a great way to experience energy savings and performance.

### **HVAC**

A proper sized HVAC system can help reduce humidity problems.
